Dr. Love findings

- Professional and trustworthy look preferred
- One student mentioned that the gender of the character does not matter as long as it is clear that the gender of the person answering the question is clear
- Some female students suggested having a female doctor because she would be more likely to keep this a secret
- Students tend to go to their mothers for relationship advice

A more gender ambiguous Dr. Love...

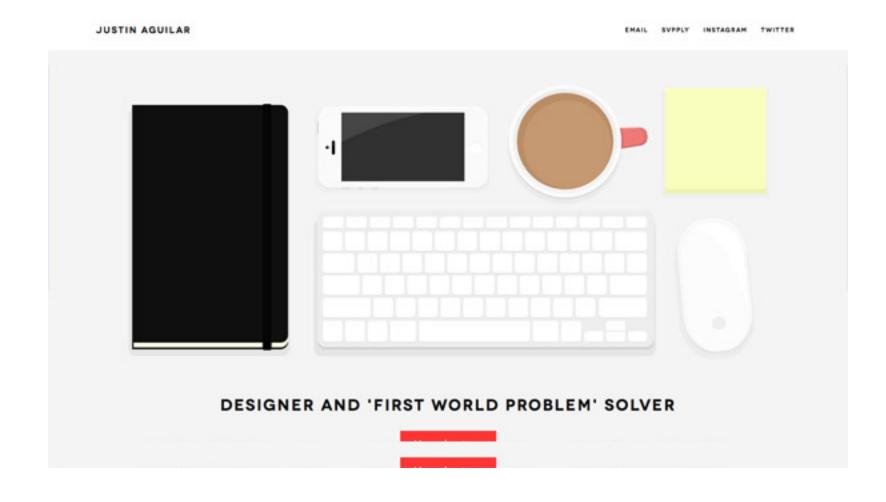

One point of discussion...

- Professional doctor look = Professional advice?
- False advertisement?
